Graziella Vialle, Research Adviser at Delft Local Authority

"Delft local authority has used the opinion of local residents for years via the Delft Internet Panel. From 2005, this civil panel has been operated privately with NETQ. Delft has been able to apply panel research quickly, flexibly and for much lower costs ever since. The quality of the panel and the measurements are now also easier to monitor."

### CHOOSE NETQ

Gather feedback on your own with ease. **NETQ Internet Surveys** is the smart tool for online surveys in 3 simple steps:

- 1) Quickly create your own new surveys
- 2) Invite respondents through web or email
- 3) View reports realtime

NETQ supports all normal question types, skip logic, conditional routing and validations, custom branding, [and more >](#)

Start directly with a **NETQ package of choice** or [see how NETQ works](#). Always stay 'in control' with a free helpdesk

### DO IT YOURSELF NOW

- View NETQ examples
- See screens NETQ user
- Try NETQ free for 7 days
